Unsure of what clinical competencies you must gain to successfully complete the Foundation Programme? Unclear on how to ensure your ePortfolio is complete to enable your progression to ST training? This up-to-date clinical handbook is aimed at current foundation doctors and clinical medical students and provides a comprehensive companion to help you in the day-to-day management of patients on the ward. Together with this it is the first handbook to also outline clearly how to gain the core clinical competencies required for successful completion of the Foundation Programme. Written by doctors for doctors this comprehensive handbook explains how to successfully manage all of the common cases you will face during the Foundation Programme. It introduces the Foundation Programme and what is expected of a new doctor especially with the introduction of Modernising Medical Careers and illustrates clearly the best way to manage, step-by-step, over 150 commonly encountered clinical diseases, including NICE guidelines to ensure a gold standard of clinical care is achieved. The book describes how to successfully gain the core clinical competencies within Medicine and Surgery including an extensive list of differentials and conditions explained. It explores the various radiology images you will encounter and how to interpret them and tells you how to succeed in the assessment methods used including DOP's, Mini-CEX's and CBD's. The book provides a step by step diagrammatic guide to doing common clinical procedures competently and safely and outlines how to ensure your ePortfolio is maintained properly to ensure successful completion of the Foundation Programme.
