In this volume, what are thought to be some of the more important aspects of the Dodd–Frank Act are discussed from a number of perspectives, including that of industry scholars who have been actively involved in evaluating financial regulation, regulators who are responsible for implementing the reform, financial policy experts representing think tanks and banking trade associations, congressmen and congressional staff involved with developing the legislation, and legal scholars. The volume summarizes the act, evaluates how the new regulations are being implemented and how the implementation process is progressing, and discusses modifications that, in the views of the authors, might be needed to more effectively achieve the stated goals of the legislation.
