This fun and interesting, interactive series will enthrall young readers by making them a part of the story. Readers will become the main character and can revel in the gory, dark, horrific side of life throughout important moments in history. Humorous "Handy Hints" that relate directly to the text are provided on each spread. You (the reader) are a member of a group of nomadic hunter-gatherers living in the ice age, about 15,000 years ago. As a member of the group, you will get an insider's look at what life was like in the ice age as you follow the migratory routes of your prey--mammoths. Learn what tools and weapons are used for hunting, how you prepare for your hunt by holding a sacred ceremony, how to make shelter on the barren tundra, how to catch the woolly beasts, and how your journey has taken you from Asia and Europe to North America via a frozen land bridge. After reading this book there will be no doubt in your mind that this is definitely a dangerous beast you'd rather not encounter.
