BRANCUSI IN AMERICA The Catalogue of the "Unknown Works" Grid Modorcea

BRANCUSI IN AMERICA is the first album about Constantin Brancusi's American career. The album required a research on the concept of the New in art, in the art of Brancusi, because his New brought him tremendous success and, for that reason, he is considered the founder of the American Modern Art. However, in this complex study, Grid Modorcea has also chronicled the daily presence of Brancusi's works in the New York museums so that the author could outline, for the first time in history, the context in which the thrilling story of "the unknown works" is brought to the attention of American art lovers. "The unknown works," respectively the series of original works attributed to Brancusi, were first made when Brancusi was a student in Bucharest in 1900 and were later resumed by him in Paris and New York City. For the first time in history, the reader is being offered THE CATALOG OF "THE UNKNOWN WORKS," with explanations and photographs of remarkable collection pieces that are part of the heritage of Brancusi's "foliage" work, as the artist himself predicted. Thus, a gap is being filled in the study of the life and work of the great Romanian sculptor.
