On the morning before her 67th death, it is business as usual for Jesse Sullivan: meet with the mortician, counsel soon-to-be-dead clients, and have coffee while reading the latest regeneration theory. Jesse dies for a living, literally. As a Necronite, she is one of the population's rare 2% who can serve as a death replacement agent, dying so others don't have to. Although each death is different, the result is the same: a life is saved, and Jesse resurfaces days later with sore muscles, new scars, and another hole in her memory. But when Jesse is murdered and becomes the sole suspect in a federal investigation, more than her freedom and sanity are at stake. She must catch the killer herself--or die trying.

Called "addictive" by New York Times Bestseller Darynda Jones, fans of contemporary and urban fantasy will enjoy seeing snarky Sullivan resist the mantle of hero when called upon to save the world.
