This book analyses four major long-standing and intractable conflicts in the Asia-Pacific region (the Korean Peninsula; the Taiwan Strait; the South China Sea (Spratly Islands); and India-Pakistan), and aims to identify the mechanisms used to manage these conflicts.

International Conflict in the Asia-Pacific brings together in one volume four major international conflicts that have shaped the region, and studies how they evolved and how best to manage them. The book seeks to find a pattern common to the four conflicts and their management as well as taking note of variations among them, hereby aiming to establish what might be called the 'Asia-Pacific way of managing intractable conflicts'.

This book will of much interest to students of international conflict management, Asian politics, security studies and IR in general.
