Las playas y dunas costeras. Un hogar en movimiento (La Ciencia Para Todos / Science for All) (Spanish Edition) María Luisa Martínez

¿Qué son las dunas costeras? ¿Qué diferencia hay entre una playa y una duna? ¿Qué tienen de interesantes las playas y las dunas, además de ser sitios donde se va de vacaciones? ¿Sabías que existen islas formadas de arena y que se mueven todo el tiempo? ¿Por qué las playas y las dunas están relacionadas entre sí y deben considerarse como un todo? Lo cierto es que la expansión demográfica y el crecimiento urbano, industrial y turístico han puesto en peligro el ecosistema. La autora, bióloga y doctora en ciencias por la UNAM, nos introduce al conocimiento de estos hábitats y analiza las perspectivas para la conservación y el manejo de las costas.
