Lapbook Journals are specifically designed to bring a more hands on learning aspect to all levels of Apologia Science. We've now made it even more convenient and user friendly with this new interactive format featuring type-in boxes. Students now have the ability to type-in answers and save them directly into the document before printing. This new format for 2nd edition General Science features 777 pages of helpful and organized tools for improved retention of this fascinating topic. Cover Pages are included for each module and serve as a helpful record keeping tool to document the beginning and completion dates for each module. Journal Pages for all of the On Your Own questions feature decorative borders and eye pleasing graphics with ample space to type-in answers. Study Guide Questions for each module are represented in two different formats allowing the student to select the method which best suits their learning style. They may choose the more hands on approach with the assembling of the Lapbook Booklets or they may prefer to complete the Journal Pages; both options feature the type-in answer format. Module Summaries are also included and are designed with spaces for typed-in answers. Lab Reports are available in 2 different designs; Partially Completed or Blank. The Partially Completed Lab Reports feature the Experiment Title and Number, Supply List, Introduction and Procedure. The Blank Lab Reports are provided as a second alternative, and they contain the Experiment Title and Number only, with additional type-in space for information. Both Lab Report formats provide a consistent and orderly means for recording the outcome of each lab studied.
