The Barbarian Principle: Merleau-Ponty, Schelling, and the Question of Nature (SUNY series in Contemporary Continental Philosophy)

The Barbarian Principle: Merleau-Ponty, Schelling, and the Question of Nature (SUNY series in Contemporary Continental Philosophy)

Essays exploring a rich intersection between phenomenology and idealism with contemporary relevance.

Toward the end of his life, Maurice Merleau-Ponty made a striking retrieval of F. W. J. Schelling's philosophy of nature. *The Barbarian Principle* explores the relationship between these two thinkers on this topic, opening up a dialogue with contemporary philosophical and ecological significance that will be of special interest to philosophers working in phenomenology and German idealism.

"*The Barbarian Principle* is an excellent contribution to the study of Schelling and Merleau-Ponty. For the Schelling scholar or student, it opens a new horizon for reconsidering Schelling's influence on twentieth-century continental philosophy in general, and phenomenology in particular (where much interest has been paid to Heidegger). For the Merleau-Ponty scholar or student, this volume demonstrates that Merleau-Ponty's engagement with German idealism extends well beyond the interrogation of Hegel or Kant." — Devin Zane Shaw, author of *Freedom and Nature in Schelling's Philosophy of Art*

Jason M. Wirth is Professor of Philosophy at Seattle University and the author of *The Conspiracy of Life: Meditations on Schelling and His Time*, also published by SUNY Press.

Patrick Burke is Professor of Philosophy at Gonzaga University and is Dean of Gonzaga-in-Florence.
