From Wikipedia: "The mini-series was designed to reboot the Superman mythos. Using the history-altering effects of Crisis on Infinite Earths as an explanation, it was decided by DC editorial to give Superman an updated look and feel by completely rewriting his history, as an attempt to attract more readers. Thus, for modern comics, Man of Steel is the dividing point between the previous canon and the current one; many comic fans refer to the two different versions as "pre-Crisis" and "post-Crisis", per Crisis on Infinite Earths being the major dividing line across DC's universe as a whole. The pre-Crisis stories were drawn to a close in Alan Moore's "Whatever Happened to the Man of Tomorrow?". From 1986 to 2004, this series was regarded as the "official" origin of Superman; in 2004, it was superseded by Superman: Birthright.[1] However, after the 2006 conclusion of the DCU-spanning Infinite Crisis storyline, the Birthright series' was removed in favor of the Superman: Secret Origin mini-series in 2009. The Man of Steel was followed by three four-issue mini-series that also retold and explored the rebooted world of Superman: The World of Krypton (December 1987 - March 1988), The World of Smallville (April - July 1988), and The World of Metropolis (August - November 1988), all of them written by Byrne."
