Infrared Spectroscopy for Food Quality Analysis and Control

Infrared Spectroscopy for Food Quality Analysis and Control

Written by an international panel of professional and academic peers, the book provides the engineer and technologist working in research, development and operations in the food industry with critical and readily accessible information on the art and science of infrared spectroscopy technology. The book should also serve as an essential reference source to undergraduate and postgraduate students and researchers in universities and research institutions.

Infrared (IR) Spectroscopy deals with the infrared part of the electromagnetic spectrum. It measure the absorption of different IR frequencies by a sample positioned in the path of an IR beam. Currently, infrared spectroscopy is one of the most common spectroscopic techniques used in the food industry. With the rapid development in infrared spectroscopic instrumentation software and hardware, the application of this technique has expanded into many areas of food research. It has become a powerful, fast, and non-destructive tool for food quality analysis and control.

Infrared Spectroscopy for Food Quality Analysis and Control reflects this rapid technology development. The book is divided into two parts. Part I addresses principles and instruments, including theory, data treatment techniques, and infrared spectroscopy instruments. Part II covers the application of IRS in quality analysis and control for various foods including meat and meat products, fish and related products, and others.

*Explores this rapidly developing, powerful and fast non-destructive tool for food quality analysis and control

*Presented in two Parts -- Principles and Instruments, including theory, data treatment techniques, and instruments, and Application in Quality Analysis and Control for various foods making it valuable for understanding and application

*Fills a need for a comprehensive resource on this area that includes coverage of NIR and MVA

From reader reviews:

Sean Scruggs:

What do you about book? It is not important along? Or just adding material when you need something to explain what yours problem? How about your spare time? Or are you busy man? If you don't have spare time to perform others business, it is give you a sense of feeling bored faster. And you have spare time? What did you do? Every person has many questions above. They have to answer that question mainly because just their can do that will. It said that about book. Book is familiar on every person. Yes, it is appropriate. Because start from on guardería until university need this Infrared Spectroscopy for Food Quality Analysis and Control to read.

Francis Garcia:

Typically the book Infrared Spectroscopy for Food Quality Analysis and Control will bring you to the new experience of reading any book. The author style to elucidate the idea is very unique. In case you try to find new book you just read, this book very appropriate to you. The book Infrared Spectroscopy for Food Quality Analysis and Control is much recommended to you to read. You can also get the e-book through the official web site, so you can quickly to read the book.

Glenn Remaley:

Reading a reserve tends to be new life style with this era globalization. With looking at you can get a lot of information which will give you benefit in your life. Together with book everyone in this world may share their idea. Ebooks can also inspire a lot of people. Plenty of author can inspire their very own reader with their story as well as their experience. Not only the storyline that share in the books. But also they write about the ability about something that you need case in point. How to get the good score toefl, or how to teach children, there are many kinds of book that exist now. The authors nowadays always try to improve their proficiency in writing, they also doing some analysis before they write for their book. One of them is this Infrared Spectroscopy for Food Quality Analysis and Control.

Scott Reisinger:

Do you like reading a book? Confuse to looking for your best book? Or your book has been rare? Why so many problem for the book? But almost any people feel that they enjoy intended for reading. Some people likes examining, not only science book but also novel and Infrared Spectroscopy for Food Quality Analysis and Control or even others sources were given understanding for you. After you know how the truly great a book, you feel need to read more and more. Science e-book was created for teacher or students especially. Those guides are helping them to add their knowledge. In different case, beside science book, any other book likes Infrared Spectroscopy for Food Quality Analysis and Control to make your spare time far more colorful. Many types of book like here.
