## Physics Meets Philosophy at the Planck Scale: Contemporary Theories in Quantum Gravity

The greatest challenge in fundamental physics is how quantum mechanics and general relativity can be reconciled in a theory of 'quantum gravity'. The project suggests a profound revision of our notions of space, time and matter, and so has become a key topic of debate and collaboration between physicists and philosophers. This volume collects classic and original contributions from leading experts in both fields for a provocative discussion of all the issues. This volume contains accessible introductions to the main and less well known approaches to quantum gravity. It includes exciting topics such as the fate of spacetime in various theories, the so-called 'problem of time' in canonical quantum gravity, black hole thermodynamics, and the relationship between the interpretation of quantum theory and quantum gravity. This book will be essential reading for anyone interested in the profound implications of trying to marry the two most important theories in physics.

### **From reader reviews:**

#### **Linda Callaway:**

The actual book Physics Meets Philosophy at the Planck Scale: Contemporary Theories in Quantum Gravity will bring you to definitely the new experience of reading a new book. The author style to clarify the idea is very unique. In case you try to find new book to read, this book very acceptable to you. The book Physics Meets Philosophy at the Planck Scale: Contemporary Theories in Quantum Gravity is much recommended to you to see. You can also get the e-book from official web site, so you can easier to read the book.

#### **Eric Frances:**

Are you kind of busy person, only have 10 or even 15 minute in your moment to upgrading your mind ability or thinking skill even analytical thinking? Then you are receiving problem with the book compared to can satisfy your short space of time to read it because all of this time you only find book that need more time to be examine. Physics Meets Philosophy at the Planck Scale: Contemporary Theories in Quantum Gravity can be your answer as it can be read by an individual who have those short time problems.

#### **Cynthia Gomez:**

What is your hobby? Have you heard which question when you got scholars? We believe that that concern was given by teacher with their students. Many kinds of hobby, Everybody has different hobby.
