## **Nerve-Driven Immunity: Neurotransmitters and Neuropeptides in the Immune System**

“Nerve-Driven Immunity: Neurotransmitters and Neuropeptides in the Immune System” summarizes, analyzes and sheds new light on an unrecognized, yet very important role of key neurotransmitters and neuropeptides in the immune system.

Each chapter of the book deals with a different neurotransmitter/neuropeptide from the following list: Dopamine, Adrenaline, Noradrenaline, Acetylcholine, Glutamate, GABA, Somatostatin, Neuropeptide Y (NPY), Vasoactive intestinal polypeptide (VIP), Calcitonin gene related peptide (CGRP), Opioids and Cannabinoids.

For each of these neurotransmitters/neuropeptides, the following four topics are discussed:

- The specific receptors for the neurotransmitter/neuropeptide expressed in various types of immune cells
- The direct effects induced by the neurotransmitter/neuropeptide in various types of immune cells (either resting or activated), and the specific immune functions and features it activates/elevates or rather inhibits in specific concentrations
- The production of the neurotransmitter/neuropeptide in, and its release by, various types of immune cells
- The involvement of the neurotransmitter/neuropeptide in various diseases of the immune system (among them autoimmune diseases, immunodeficiency diseases and hematological cancers)The book includes many original figures, overview tables, and proposed models of events which are instrumental, enriching and stimulating for the reader.

In light of the above-mentioned aspects, “Nerve-Driven Immunity: Neurotransmitters and Neuropeptides in the Immune System” is ideally suited as a textbook for new courses in Immunology, Neurology, Neuro-immunology or Pharmacology.

The book chapters were written by highly skilled authors from 10 countries: the USA, the United Kingdom, Italy, Israel, Sweden, France, Germany, Spain, Serbia and Romania.

“Nerve-Driven Immunity” is a term first coined by Dr. Mia Levite (the editor of the book).

### **From reader reviews:**

#### **Emmanuel Young:**

What do you in relation to book? It is not important along with you? Or just adding material when you require something to explain what the one you have problem? How about your extra time? Or are you busy individual? If you don't have spare time to try and do others business, it is gives you the sense of being bored faster. And you have time? What did you do? All people has many questions above. They must answer that question mainly because just their can do in which. It said that about guide. Book is familiar on every person. Yes, it is right. Because start from on jardín de infancia until university need this Nerve-Driven Immunity: Neurotransmitters and Neuropeptides in the Immune System to read.

#### **Anna Williams:**

In this 21st centuries, people become competitive in each and every way. By being competitive today, people have do something to make all of them survives, being in the middle of the crowded place and notice by means of surrounding. One thing that oftentimes many people have underestimated it for a while is reading. Sure, by reading a reserve your ability to survive boost then having chance to stand up than other is high. For you personally who want to start reading some sort of book, we give you this Nerve-Driven Immunity: Neurotransmitters and Neuropeptides in the Immune System book as starter and daily reading e-book. Why, because this book is greater than just a book.

#### **Nicole Floyd:**

Your reading 6th sense will not betray a person, why because this Nerve-Driven Immunity: Neurotransmitters and Neuropeptides in the Immune System e-book written by well-known writer who knows well how to make book which might be understand by anyone who all read the book. Written inside good manner for you, dripping every ideas and producing skill only for eliminate your current hunger then you still question Nerve-Driven Immunity: Neurotransmitters and Neuropeptides in the Immune System as good book not just by the cover but also by the content. This is one publication that can break don't evaluate book by its handle, so do you still needing yet another sixth sense to pick this particular!? Oh come on your reading through sixth sense already alerted you so why you have to listening to a different sixth sense.

#### **Judy Martinez:**

Don't be worry if you are afraid that this book will filled the space in your house, you could have it in e-book method, more simple and reachable. This kind of Nerve-Driven Immunity: Neurotransmitters and Neuropeptides in the Immune System can give you a lot of friends because by you taking a look at this one book you have thing that they don't and make you actually more like an interesting person. This book can be one of a step for you to get success. This guide offer you information that perhaps your friend doesn't know, by knowing more than some other make you to be great men and women. So , why hesitate? Let me have Nerve-Driven Immunity: Neurotransmitters and Neuropeptides in the Immune System.
