Reviews: Methods and Technology in Fish Biology and Fisheries published by Kluwer Academic Publishers is a book series dedicated to the publication of information on advanced, forward-looking methodologies, technologies, or perspectives in fish and is especially dedicated to relevant topics addressing global, fisheries. This series international concern in fish and fisheries. Humans continue to challenge our environments with new technologies and technological applications. The dynamic creativity of our own species often tends to place the greatest burden on our supporting ecosystems. This is especially true for aquatic networks of creeks, lakes, rivers and ocean environments. We also frequently use our conceptual powers to balance conflicting requirements and demands on nature and continue to develop new approaches and tools to provide sustainable resources as well as conserve what we hold most dear on local and global scales. This book series will provide a window into the developing dynamic among humans, aquatic ecosystems (both freshwater and marine), and the organisms that inhabit aquatic environments. There are many reasons to doubt the increasing social and economic value technology has gained over the last two centuries. Science and technology represent stages in human development. I agree with Ernst Mayer when he said in *Toward a New Philosophy of Biology* (1988) that "endeavors to solve all scientific problems by pure logic and refined measurements are unproductive, if not totally irrelevant.

### **From reader reviews:**

#### **James Lapham:**

This Electronic Tagging and Tracking in Marine Fisheries: Volume 1 (Reviews: Methods and Technologies in Fish Biology and Fisheries) book is not ordinary book, you have after that it the world is in your hands. The benefit you receive by reading this book is actually information inside this guide incredible fresh, you will get data which is getting deeper you actually read a lot of information you will get. This specific Electronic Tagging and Tracking in Marine Fisheries: Volume 1 (Reviews: Methods and Technologies in Fish Biology and Fisheries) without we know teach the one who examining it become critical in pondering and analyzing. Don't become worry Electronic Tagging and Tracking in Marine Fisheries: Volume 1 (Reviews: Methods and Technologies in Fish Biology and Fisheries) can bring whenever you are and not make your handbag space or bookshelves' turn out to be full because you can have it in your lovely laptop even cellphone. This Electronic Tagging and Tracking in Marine Fisheries: Volume 1 (Reviews: Methods and Technologies in Fish Biology and Fisheries) having excellent arrangement in word and layout, so you will not experience uninterested in reading.

#### **Jennifer Crowe:**

Hey guys, do you wishes to finds a new book you just read? May be the book with the name Electronic Tagging and Tracking in Marine Fisheries: Volume 1 (Reviews: Methods and Technologies in Fish Biology and Fisheries) suitable to you? Typically the book was written by well known writer in this era. The particular book untitled Electronic Tagging and Tracking in Marine Fisheries: Volume 1 (Reviews: Methods and Technologies in Fish Biology and Fisheries) is one of several books that will everyone read now. That book was inspired lots of people in the world. When you read this reserve you will enter the new dimension that you ever know before. The author explained their concept in the simple way, and so all of people can easily to understand the core of this guide. This book will give you a great deal of information about this world now. So that you can see the represented of the world in this particular book.

#### **Suzanne Cicero:**

Playing with family in the park, coming to see the marine world or hanging out with pals is thing that usually you have done when you have spare time, subsequently why you don't try issue that really opposite from that. Just one activity that make you not sensation tired but still relaxing, trilling like on roller coaster you already been ride on and with addition info. Even you love Electronic Tagging and Tracking in Marine Fisheries: Volume 1 (Reviews: Methods and Technologies in Fish Biology and Fisheries), it is possible to enjoy both. It is good combination right, you still wish to miss it? What kind of hang type is it? Oh come on its mind hangout folks. What? Still don't understand it, oh come on its identified as reading friends.

#### **Rafael Perez:**
