## **The Persistence of Allegory: Drama and Neoclassicism from Shakespeare to Wagner** Jane K. Brown

In an impressively comparative work, Jane K. Brown explores the tension in European drama between allegory and neoclassicism from the sixteenth through the nineteenth century. Imitation of nature is generally thought to triumph over religious allegory in the Elizabethan and French classical theater, a shift attributable to the recovery of Aristotle's *Poetics* in the Renaissance. But if Aristotle's terminology was rapidly assimilated, Brown demonstrates that change in dramatic practice took place only gradually and partially and that allegory was never fully cast off the stage.

The book traces a complex history of neoclassicism in which new allegorical forms flourish and older ones are constantly revitalized. Brown reveals the allegorical survivals in the works of such major figures as Shakespeare, Calderón, Racine, Vondel, Metastasio, Goethe, and Wagner and reads tragedy, comedy, masque, opera, and school drama together rather than as separate developments. Throughout, she draws illuminating parallels to modes of representation in the visual arts.

A work of broad interest to scholars, teachers, and students of theatrical form, *The Persistence of Allegory* presents a fundamental rethinking of the history of European drama.
