But, for any parent who has raised a child, it is well known that these hours can come at nearly any time, with the least likely time being during the middle of the night. Coaxing and comforting a baby to sleep through the night is one of the earliest and daunting tasks that young parents face and can lead to raised stress and tension levels and a whole slew of problems for both you and your baby.

The tips in this book are designed to provide every parent with the knowledge they need to help their baby feel more comfortable in their crib and start sleeping through the night not only for the first time, but consistently for the foreseeable future.
