'This volume describes in detail my impression of specifically how to understand and to interpret in an analytic session. The reader will note that I present clinical sessions in stenographic detail and display complete sessions. It will be noted that I do not include past history but do make reference to it when it is necessary to understand the text. In the sessions of my own analysands and in those of others, I go to great lengths to detail my private observations, reveries, and countertransferences as well as my thinking about how, when, and what should be interpreted.' - From the Introduction
