Neurociencia y filosofía del hombre (Albatros) (Spanish Edition) Juan José Sanguinetti

La neurociencia es hoy uno de los sectores científicos más avanzados, con mucho que decir en cuestiones como el pensamiento, la conciencia, la libertad, la afectividad, antes reservadas solo a la filosofía. En este libro, el autor pretende introducir en esta área de un modo equilibrado, accesible y riguroso, planteando una filosofía de la neurociencia.

En primer lugar, ofrece un panorama histórico, deteniéndose especialmente en los neurocientíficos contemporáneos que han meditado sobre cuestiones antropológicas, a veces con muy diversas interpretaciones. A continuación, se estudia la integración del cerebro y sus funciones en los diversos niveles de la persona humana, con una amplia sección dedicada a los temas de la percepción, las emociones básicas, la conciencia del propio cuerpo y la captación de los demás.

Por su carácter sintético, preciso e interdisciplinar, este libro interesará a todos los que deseen profundizar en las relaciones entre la neurociencia y la antropología.

Juan José Sanguinetti, nacido en Buenos Aires, es Catedrático de Filosofía del conocimiento en la Pontificia Universidad de la Santa Cruz (Roma). En esta colección ha publicado *El conocimiento humano* (2005) y *Filosofía de la mente* (2007).
